# Residential Traffic Calming Program

## What is traffic calming?

Traffic calming is the slowing of motorists on residential streets using physical and non-physical measures without restricting access. Because addressing speeding on one street will likely push the problem to adjacent streets, traffic calming is a community initiative, and will likely include several or more streets within a community.

## A street must satisfy basic requirements to be eligible for the program:

- Publicly owned and maintained
- Classified as a local residential roadway
- 2-lane roadway
- 25 mph posted speed limit (or less)

## What is the traffic calming process?

- Traffic Study
- Stakeholders Meeting
- Petition Process
- Traffic Calming Plan

## Typical Physical Measures

Speed Humps, Raised Crosswalks, Choker, Mini Roundabout, Chicane, Raised Median Island

For more information please contact DTCl at 703-737-8624 or take a brochure.
